Carton components may differ from one country to another. Save all packing materials and the carton.

The interface cable is not a standard accessory. Please purchase the appropriate interface cable for the interface you intend to use (Parallel or Network). Do NOT connect the interface cable at this time. Connecting the interface cable is done during the software installation process.

- **USB interface cable**
  - Please make sure you use a USB 2.0 interface cable that is no longer than 6 feet (2.0 meters).
  - When you use a USB cable, make sure you connect it to the USB port of your computer and not to a USB port on a keyboard or non-powered USB hub.

- **Parallel interface cable**
  - Please make sure you use a Parallel interface cable that is no longer than 6 feet (2.0 meters).
  - Use a shielded interface cable that is IEEE 1284-compliant.

- **Network cable**
  - Use a straight-through Category 5 (or greater) twisted-pair cable for 10BASE-T or 100Base-TX Fast Ethernet Network.

For USB Interface Cable Users  
For Macintosh® .......
Step 1  Setting Up the machine

1 Install the drum unit assembly

Do NOT connect the interface cable. Connecting the interface cable is done during the software installation process.

1 Open the front cover by pressing the front cover (1) release button.

2 Unpack the drum unit and toner cartridge assembly.

3 Gently rock the drum assembly from side to side several times to distribute the toner evenly inside the cartridge.

4 Put the drum unit and toner cartridge into the machine so that it clicks into place.

5 Close the front cover of the machine.
2 Load Paper in the Paper Tray

1 Pull the paper tray completely out of the machine.

2 While pressing the paper guide release lever (1), slide the adjusters to fit the paper size. Check that the guides are firmly in the slots.

3 Fan the stack of paper well to avoid paper jams and misfeeds.

4 Put paper in the paper tray. Check that the paper is flat in the tray and below the maximum paper mark (1).

5 Put the paper tray firmly back into the machine and unfold the support flap (1) before you use the machine.

For Legal size paper, press the lever (1) located at the back of the tray and pull out the back of the paper tray. Move the tray lock button (2) to the lock position.

For details on supported paper specifications, see “Acceptable paper and other media” in Chapter 2 of the User’s Guide.
Step 1 Setting Up the machine

3 Release the Scanner Lock

1 Push the lever (1) up to unlock the scanner. (The gray scanner lock lever is located at the back left side, under the document cover (2).)

4 Connect the Power Cord and Phone Line

Do not connect the Parallel or USB cable yet.

1 Make sure that the power switch is off. Connect the AC power cord to the machine.

2 Plug the AC power cord into an AC outlet. Turn the power switch on.

If Scanner Locked appears on the LCD, immediately release the scanner lock and press Stop.

3 Connect one end of the telephone line cord to the jack on the machine marked LINE and the other end to a modular wall jack.
Warning

- The machine must be grounded using a 3-prong plug.
- Since the machine is grounded through the power outlet, you can protect yourself from potentially hazardous electrical conditions on the telephone network by keeping the power cord connected to your machine when you connect it to a telephone line. Similarly, you can protect yourself when you want to move your machine by disconnecting the telephone line first and then the power cord.

If you are sharing one phone line with an external telephone, connect it as shown below.

If you are sharing one phone line with an external telephone answering machine, connect it as shown below.

Please set the receive mode to External TAM.
For more details, see “Connecting an external TAD (Telephone Answering Device)” in Chapter 7 of the User’s Guide.
Step 1  Setting Up the machine

5 Setting the Date and Time

The machine displays the date and time, and prints it on every fax you send.

1 Press Menu.
2 Press 0.
3 Press 2.
4 Enter the last two digits of the year on the dial pad, and then press OK.
   (e.g. Enter 0, 6 for 2007.)
5 Enter the two digits for the month on the dial pad, and then press OK.
   (e.g. Enter 0, 3 for March.)
6 Enter the two digits for the day on the dial pad, and then press OK.
   (e.g. Enter 2, 5.)
7 Enter the time in 24-hour format on the dial pad, and then press OK.
   (e.g. Enter 1, 5, 2, 5 for 3:25 P.M.)
8 Press Stop.

If you make a mistake, press Stop to start from Step 1.
Setting your Machine ID

You should store your name and fax number to be printed on all fax pages that you send.

1. Press Menu.
2. Press 0.
4. Enter your fax number (up to 20 digits) on the dial pad, and then press OK.

<table>
<thead>
<tr>
<th>03. Machine ID</th>
<th>Fax: _</th>
</tr>
</thead>
<tbody>
<tr>
<td>Enter &amp; OK Key</td>
<td></td>
</tr>
</tbody>
</table>

5. Enter your telephone number (up to 20 digits) on the dial pad, and then press OK. (If your telephone number and fax number are the same, enter the same number again.)

<table>
<thead>
<tr>
<th>03. Machine ID</th>
<th>Fax: 908XXXXXXXX</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tel: _</td>
<td></td>
</tr>
<tr>
<td>Enter &amp; OK Key</td>
<td></td>
</tr>
</tbody>
</table>

6. Use the dial pad to enter your name (up to 20 characters), and then press OK.

<table>
<thead>
<tr>
<th>03. Machine ID</th>
<th>Fax: 908XXXXXXXX</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tel: 908XXXXXXXX</td>
<td></td>
</tr>
<tr>
<td>Name: _</td>
<td></td>
</tr>
<tr>
<td>Enter &amp; OK Key</td>
<td></td>
</tr>
</tbody>
</table>

- Refer to the following chart for entering your name.
- If you need to enter a character that is on the same key as the previous character, press to move the cursor to the right.
- If you entered a letter incorrectly and want to change it, press Clear/Back to move the cursor under the incorrect character, press Clear/Back.

7. Press Stop.

NOTICE (For USA)
The Telephone Consumer Protection Act of 1991 makes it unlawful for any person to use a computer or electronic device to send any message via a telephone fax machine unless such messages clearly contain, in a margin at the top or bottom of each transmitted page, or on the first page of the transmission, the date and time it is sent and an identification of the business or other entity or other individual sending the message and the telephone number of the sending machine or such business, other entity or individual.

To program this information into your machine, see Setting the Date and Time on page 8 and Setting your Machine ID on page 9.

For more details, see "Entering Text" in Chapter D of the User's Guide.
There are four possible receive modes: Fax Only, Fax/Tel, Manual and External TAM. Choose the Answer Mode which best suits your needs.

1. Press Menu.
2. Press 0.
4. Press or  to select the mode. Press OK.
5. Press Stop.

For more details, see “RX Settings” in Chapter 6 of the User’s Guide.
8 Tone and Pulse dialing mode

Your machine comes set for Tone dialing service. If you have Pulse dialing service (rotary), you need to change the dialing mode.

1. Press Menu.
2. Press 0.
4. Press or to select Pulse (or Tone). Press OK.
5. Press Stop.

9 Selecting Your Language

1. Press Menu.
2. Press 0.
3. Press 0.
4. Select your language (English or French) by using or , and then press OK.
5. Press Stop.

10 Setting the LCD Contrast

You can change the contrast to help the LCD look lighter or darker.

1. Press Menu.
2. Press 2.
4. Press to increase the contrast.
   —OR—
   Press to decrease the contrast.
   Press OK.
5. Press Stop.

Go to the next page to install the drivers & software
## Step 2: Installing the Drivers & Software

### Supplied CD-ROM “Multi-Function Suite”

The CD-ROM includes the following items:

<table>
<thead>
<tr>
<th>Windows®</th>
<th>Macintosh®</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1.png" alt="Install Multi-Function Suite" /></td>

Network
Administrators
Step 2 Installing the Drivers & Software

Make sure that you have finished the instructions from Step 1 “Setting Up the machine” on pages 4 - 11.

1. Turn off and unplug the machine from the AC outlet and disconnect it from your computer, if you already connected an interface cable.

2. Turn on your computer.
   (For Windows® 2000 Professional/XP/XP Professional x64 Edition, you must be logged on with Administrator rights.)

3. Put the supplied CD-ROM into your CD-ROM drive. If the model name screen appears, choose your machine. If the language screen appears, choose your language.

4. The CD-ROM main menu will appear. Click Install Multi-Function Suite.

5. After reading and accepting the ScanSoft® PaperPort® SE License Agreement, click Yes.

6. When the Multi-Function Suite Software License Agreement window appears, click Yes if you agree to the Software Licence Agreement.

7. Choose Local Connection, and then click Next. The installation will continue.

For USB Interface Cable Users
(For Windows® 98/98SE/Me/2000 Professional/XP/XP Professional x64 Edition)

If this window does not appear, use Windows® Explorer to run the setup.exe program from the root folder of the Océ CD-ROM.

If you want to install the PS driver, choose Custom Install and then follow the on-screen instructions. When the Select Components screen appears, check PS Printer Driver, and then continue following the on-screen instructions.
3 When this screen appears, connect the USB interface cable to your PC, and then connect it to the machine.

(For Windows® XP)

4 It will take a few seconds for the installation screens to appear. The installation of the Océ drivers will automatically start. The installation screens appear one after another. Please wait, it will take a few seconds for all the screens to appear.

**DO NOT** try to cancel any of the screens during this installation.

5 When the On-Line Registration screen is displayed, make your selection and follow the on-screen instructions.

6 Click **Finish** to restart your computer. 
(After restarting the computer, for Windows® 2000 Professional/XP/XP Professional x64 Edition, you must be logged on with Administrator rights.)

7 The Multi-Function Suite (including printer driver and scanner driver) has been installed and the installation is now complete.

---

9 Plug in the power cord and turn on the machine.

---

**DO NOT** connect the machine to a USB port on a keyboard or a non-powered USB hub. Océ recommends that you connect the machine directly to your computer.
Step 2
Installing the Drivers & Software

For Parallel Interface Cable Users
(For Windows® 98/98SE/Me/2000 Professional/XP/XP Professional x64 Edition)

Make sure that you have finished the instructions from Step 1 “Setting Up the machine” on pages 4 - 11.

Please close any applications running before installing the Multi-Function Suite.

1. Turn off and unplug the machine from the AC outlet and disconnect it from your computer, if you already connected an interface cable.

2. Turn on your computer.
(For Windows® 2000 Professional/XP/XP Professional x64 Edition, you must be logged on with Administrator rights.)

3. Put the supplied CD-ROM into your CD-ROM drive. If the model name screen appears, choose your machine. If the language screen appears, choose your language.

4. The CD-ROM main menu will appear. Click Install Multi-Function Suite.

5. After reading and accepting the ScanSoft® PaperPort® SE License Agreement, click Yes.

The installation of PaperPort® SE will automatically start and is followed by the installation of Multi-Function Suite.

6. When the Multi-Function Suite Software License Agreement window appears, click Yes if you agree to the Software License Agreement.

7. Choose Local Connection, and then click Next. The installation will continue.

For Parallel Interface Cable Users
(For Windows® 98/98SE/Me/2000 Professional/XP/XP Professional x64 Edition)

Please close any applications running before installing the Multi-Function Suite.

If this window does not appear, use Windows® Explorer to run the setup.exe program from the root folder of the Océ CD-ROM.

If you want to install the PS driver, choose Custom Install and then follow the on-screen instructions. When the Select Components screen appears, check PS Printer Driver, and then continue following the on-screen instructions.
When this screen appears, connect the parallel interface cable to your PC, and then connect it to the machine.

(For Windows® XP)

DO NOT plug in the power cord before connecting the parallel interface cable. It may cause damage to your machine.

Plug in the power cord and turn on the machine.

(For Windows® 98/98SE/Me/2000)

DO NOT try to cancel any of the screens during this installation.

When the On-Line Registration screen is displayed, make your selection and follow the on-screen instructions.

Océ recommends that you connect the machine directly to your computer.

For Windows® XP users, wait for a while since the installation of the Océ drivers will automatically start. The screens appear one after another.

For Windows® 98/98SE/Me/2000 Professional users, click Next.
When the following screen appears, click **Finish** and wait as the PC restarts Windows® and continues the installation.

After the computer restarts, the installation of the Océ drivers will automatically start. Follow the instructions on the screen. (For Windows® 2000 Professional/XP/XP Professional x64 Edition, you must be logged on with Administrator rights.)

The Multi-Function Suite (including printer driver and scanner driver) has been installed and the installation is now complete.
Make sure that you have finished the instructions from Step 1 “Setting Up the machine” on pages 4 - 11.

1. Turn off and unplug the machine from the AC outlet.

2. Turn on your computer.
   You must be logged on with Administrator rights.

3. Connect the parallel interface cable to your computer, and then connect it to the machine.

4. Plug in the power cord and turn on the machine.

5. Put the Supplied CD-ROM into your CD-ROM drive. If the model name screen appears, choose your machine. If the language screen appears, choose your language.

6. The CD-ROM main menu will appear. Click Install Multi-Function Suite.

7. After reading and accepting the ScanSoft® PaperPort® SE License Agreement, click Yes.

The installation of PaperPort® SE will automatically start and is followed by the installation of Multi-Function Suite.

For Windows NT® Workstation Version 4.0 Users

DO NOT plug in the power cord before connecting the parallel interface cable. It may cause damage to your machine.

Océ recommends that you connect the machine directly to your computer.

Continued ..
When the Multi-Function Suite Software License Agreement window appears, click Yes if you agree to the Software License Agreement.

Choose Local Connection, and then click Next. The installation will continue.

If you want to install the PS driver, choose Custom Install and then follow the on-screen instructions. When the Select Components screen appears, check PS Printer Driver, and then continue following the on-screen instructions.

When the On-Line Registration screen is displayed, make your selection and follow the on-screen instructions.

Click Finish and wait as the PC restarts Windows® and continues the installation. (You must be logged on with Administrator rights.)

The Multi-Function Suite (including printer driver and scanner driver) has been installed and the installation is now complete.
For Network Interface Cable Users
(For Windows® 98/98SE/Me/NT/2000 Professional/XP/XP Professional x64 Edition)

Make sure that you have finished the instructions from Step 1 “Setting Up the machine” on pages 4 - 11.

1. Turn off and unplug the machine from AC outlet.

2. Connect the network cable to the machine, and then connect it to a free port on your hub.

3. Plug in the power cord and turn on the machine.

4. Turn on your computer. (For Windows® 2000 Professional/XP/XP Professional x64 Edition/Windows NT® 4.0, you must be logged on with Administrator rights.) Close any applications running before installing the Multi-Function Suite.

Before installation, if you are using Personal Firewall software, disable it. Once you are sure that you can print after the installation, re-start your Personal Firewall software.

5. Put the supplied CD-ROM into your CD-ROM drive. If the model name screen appears, choose your machine. If the language screen appears, choose your language.

6. The CD-ROM main menu will appear. Click Install Multi-Function Suite.

If this window does not appear, use Windows® Explorer to run the setup.exe program from the root folder of the Océ CD-ROM.

7. After reading and accepting the ScanSoft® PaperPort® SE License Agreement, click Yes.

The installation of PaperPort® SE will automatically start and is followed by the installation of Multi-Function Suite.

Continued ...
When the Multi-Function Suite Software License Agreement window appears, read the agreement, then click **Yes** if you agree to its terms.

Choose **Network Connection** and then click **Next**.

If you want to install the PS driver, choose **Custom Install** and then follow the on-screen instructions. When the Select Components screen appears, check **PS Printer Driver**, and then continue following the on-screen instructions.

The installation of the Océ drivers will automatically start. The installation screens appear one after another. Please wait, it will take a few seconds for all the screens to appear.

**DO NOT** try to cancel any of the screens during this installation.

If the machine is configured for your network, select your machine from the list and then click **Next**.

This window will not appear if there is only one of this Océ model connected on the network, it will be selected automatically.

If the machine is not yet configured for use on your network, the following screen appears.

Click **OK**. The **Configure IP Address** will appear. Enter the proper IP address information for your network by following the on-screen instructions.

When the On-Line Registration screen is displayed, make your selection and follow the on-screen instructions.
Click **Finish** to restart your computer.
(For Windows® 2000 Professional/XP/XP Professional x64 Edition/Windows NT® 4.0, you must be logged on with Administrator rights.)

The Multi-Function Suite (including, network printer driver and network scanner driver) has been installed and the installation is now complete.

- For network installations, the **Repair Multi-Function Suite** selection from the main menu is not supported.
- Network Scanning, Network Remote Setup, Network PC-FAX Receiving are not supported in Windows NT® 4.0.
- For configuration of advanced network functions such as LDAP, Scan to FTP and Fax to Server, see the Software and Network User's Guides located on the CD-ROM.
Installing the Drivers & Software

For USB Interface Cable Users

**For Mac OS® 9.1 to 9.2**

Make sure that you have finished the instructions from Step 1 “Setting Up the machine” on pages 4 - 11.

1. Turn off and unplug the machine from the AC outlet and disconnect it from your Macintosh®, if you already connected an interface cable.

2. Turn on your Macintosh®.

3. Insert the supplied CD-ROM into your CD-ROM drive.

4. Double-click the Start Here OS 9.1-9.2 icon to install the printer and scanner drivers. If the language screen appears, choose your language.

5. Follow the on-screen instructions, and restart your Macintosh®.

6. Connect the USB interface cable to your Macintosh®, and then connect it to the machine.

7. Plug in the power cord and turn on the machine.

8. From the Apple® menu, click the Chooser.

**DO NOT connect the machine to a USB port on a keyboard or a non-powered USB hub.**
Click the **Oce Laser** icon.
On the right side of the **Chooser**, choose the machine to which you want to print.
Close the **Chooser**.

The printer and scanner drivers have been installed.

**The ControlCenter2 is not supported in Mac OS® 9.x.**

To install Presto!® PageManager®, click the **Presto! PageManager OS 9.1-9.2** icon and follow the on-screen instructions.

You can easily scan, share and organize photos and documents using Presto!® PageManager®.

**Presto!® PageManager® has been installed and the installation is now complete.**
Step 2 Installing the Drivers & Software

For USB Interface Cable Users

For Mac OS® X 10.2.4 or greater

Make sure that you have finished the instructions from Step 1 “Setting Up the machine” on pages 4 - 11.

1. Turn off and unplug the machine from the AC outlet and disconnect it from your Macintosh®, if you already connected an interface cable.

2. Turn on your Macintosh®.

3. Insert the supplied CD-ROM into your CD-ROM drive.

4. Double-click the Start Here OSX icon to install the drivers and Multi-Function Suite. If the language screen appears, choose your language.

5. Follow the on-screen instructions, and restart your Macintosh®.

6. After the DeviceSelector window appears, connect the USB interface cable to your Macintosh® and then to the machine.

For Mac OS® X 10.2.0 to 10.2.3 user, upgrade to Mac OS® X 10.2.4 or greater.

The DeviceSelector window will not appear if you have connected a USB interface cable to the machine before restarting your Macintosh® or if you are overwriting a previously installed version of the Océ software. If you encounter this problem continue with the installation but skip Step 9. You should choose your Océ machine from the Model pull-down list in the main screen of ControlCenter2 (For details, see the Software User’s Guide on CD-ROM).
7 Plug in the power cord and turn on the machine.

8 Choose USB and then click OK.

9 Click Go, then choose Applications.

10 Double-click the Utilities folder.

11 Double-click the Print Setup Utility icon.

For Mac OS® X 10.2.x users, open Print Center icon.

12 Click Add.

For Mac OS® X 10.2.4 to 10.3.x users → Go to 11

For Mac OS® X 10.4 users → Go to 14

Continued ...
Choose USB.

Choose your model name, and then click Add.

For Mac OS® X 10.2.4 to 10.3 users:

For Mac OS® X 10.4 or greater users:

Click Printer Setup Utility, then choose Quit Printer Setup Utility.

The Multi-Function Suite, printer driver, scanner driver and Océ ControlCenter2 have been installed.

To install Presto!® PageManager®, click the Presto! PageManager OSX icon and follow the on-screen instructions.

When Presto!® PageManager® is installed OCR capability is added to the Océ ControlCenter2. You can easily scan, share, and organize photos and documents using Presto!® PageManager®.

Presto!® PageManager® has been installed and the installation is now complete.
Make sure that you have finished the instructions from Step 1 “Setting Up the machine” on pages 4 - 11.

1. Turn off and unplug the machine from the AC outlet.

2. Turn on your Macintosh®.

3. Insert the supplied CD-ROM into your CD-ROM drive.

4. Double-click the Start Here OS 9.1-9.2 icon to install the printer driver. If the language screen appears, choose your language.

5. Follow the on-screen instructions, and restart your Macintosh®.

6. Connect the network interface cable to the machine, and then connect it to a free port on your hub.

7. Plug in the power cord and turn on the machine.

8. From the Apple® menu click Chooser.

Continued ...
Click the **Oce Laser (IP)** icon, and then choose **BRN_XXXXXX**. Close the **Chooser**.

XXXXXX are the last six digits of the Ethernet address.

The printer driver has been installed.

The **ControlCenter2** and **Network Scanning** are not supported in Mac OS® 9.x.

To install **Presto!® PageManager**®, click the **Presto! PageManager OS 9.1-9.2** icon and follow the on-screen instructions.

You can easily scan, share and organize photos and documents using Presto!® PageManager®.

**Presto!® PageManager®** has been installed and the installation is now complete.
For Mac OS® X 10.2.4 or greater

Make sure that you have finished the instructions from Step 1 “Setting Up the machine” on pages 4 - 11.

1. Turn off and unplug the machine from the AC outlet and disconnect it from your Macintosh® if you already connected an interface cable.

2. Turn on your Macintosh®.

3. Insert the supplied CD-ROM into your CD-ROM drive.

4. Double-click the Start Here OSX icon to install the drivers and Multi-Function Suite. If the language screen appears, choose your language.

5. Follow the on-screen instructions, and restart your Macintosh®.

6. After the DeviceSelector window appears, connect the network interface cable to the machine, and then connect it to a free port on your hub.

7. Plug in the power cord and turn on the machine.

The DeviceSelector window will not appear if you have also connected a USB interface cable to the machine before restarting your Macintosh® or if you are overwriting a previously installed version of the Océ software. If you encounter this problem continue with the installation skipping Steps 9 to 12. You should select your Océ machine from the Model pull-down list in the main screen of ControlCenter2. (For details, see the Software Use’s Guide on CD-ROM.)

Continued ...
Choose **Network** and then click **OK**.

If you want to use the **Scan** key on the machine, you must check **Register your computer with the "Scan To" functions at the machine** box and enter a name you want to use for your Macintosh® in **Display Name**. The name you enter will appear on the machine’s LCD when you press the **Scan** key and choose a scan option. You can enter any name up to 15 characters long. (For more information on network scanning, see Chapter 10 of the Software User’s Guide on the CD-ROM.)

Click **Browse**.

Choose your model name, and then click **OK**. Click **OK** again to close the **DeviceSelector**.

Click **Go**, then choose **Applications**.

Double-click the **Utilities** folder.

Double-click the **Print Setup Utility** icon.

For Mac OS® X 10.2.x users, open **Print Center** icon.
15 Click Add.

For Mac OS® X 10.2.4 to 10.3.x users → Go to 16

For Mac OS® X 10.4 users → Go to 19

16 Make the selection shown below.

17 Choose your model name and then click Add.

For Mac OS® X 10.2.4 to 10.3 users:

For Mac OS® X 10.4 or greater users:

18 Click Printer Setup Utility, then choose Quit Printer Setup Utility.

The Multi-Function Suite, printer driver, scanner driver and ControlCenter2 have been installed.

For configuration of advanced network functions such as LDAP, Scan to FTP and Fax to Server, see the Software and Network User’s Guides located on the CD-ROM.

19 To install Presto!® PageManager®, click the Presto! PageManager OSX icon and follow the on-screen instructions.

When Presto!® PageManager® is installed OCR capability is added to the Océ ControlCenter2. You can also easily scan, share, and organize photos and documents using Presto!® PageManager®.

Presto!® PageManager® has been installed and the installation is now complete.
For Network Users and Administrators

BRAdmin Professional configuration utility
(For Windows® users)

The BRAdmin Professional utility for Windows® is designed to manage your network connected devices such as network-ready Multifunction devices and/or network-ready printers in a Local Area Network (LAN) environment.

Installing the BRAdmin Professional configuration utility

1. Put the supplied CD-ROM into your CD-ROM drive. The opening screen will appear automatically. Follow the on-screen instructions.

2. Click the Install Optional Applications icon on the main menu screen.

3. Click BRAdmin Professional and follow the on-screen instructions.
Setting your IP Address, Subnet Mask and Gateway using BRAdmin Professional

1. Start BRAdmin Professional, and select TCP/IP.

2. Click Devices, then choose Search Active Devices. BRAdmin will search for new devices automatically.

3. Double-click the new device.

4. Enter the IP Address, Subnet Mask and Gateway, and then click the OK button.

5. The address information will be saved to the machine.

The default password for the print server is “access”. You can use BRAdmin Professional or a web browser to change this password.

For more information on network administration, please see the Network User’s Guide in the programs menu.
The BRAdmin Light software is a Java™ application that is designed for the Apple Mac OS® X environment. It supports some of the features of the Windows BRAdmin Professional software. For example, using the BRAdmin Light software, you can change some network settings on your network ready printers and multifunction devices.

The BRAdmin Light software will be installed automatically when you install the Multi-Function Suite. If you have already installed the Multi-Function, you don’t have to install it again.

Setting your IP address, Subnet Mask and Gateway using BRAdmin Light

1. Double-click the Macintosh HD icon on your desktop.
2. Choose Library, Printers, Oce and then Utilities.
3. Double-click the BRAdmin Light.jar file. Run the BRAdmin Light software. BRAdmin Light searches new devices automatically.
4. Double-click the new device.
5. Enter the IP Address, Subnet Mask and Gateway, and then click OK.
6. The address information will be saved to the printer.

If you have a DHCP/BOOTP/RARP server in your network, you don’t have to do the following operation. The print server will automatically obtain its own IP address. Make sure that version 1.4.1_07 or later of Java™ client software is installed on your computer.

The default password for the print server is “access”. You can use BRAdmin Light to change this password.
### Options and Consumables

#### Options

The machine has the following optional accessories. You can expand the capabilities of the machine by adding these items.

<table>
<thead>
<tr>
<th>Lower Tray Unit</th>
<th>Memory</th>
</tr>
</thead>
<tbody>
<tr>
<td>6429897</td>
<td></td>
</tr>
</tbody>
</table>

Second lower paper tray unit expands total input capacity up to 500 sheets.

You can expand the memory by installing a (144-pin DlMM) memory module. For more details, see “Memory Board” in Chapter B of the User’s Guide.

#### Replacement Consumables

When the time comes to replace consumables, an error message will be indicated on the LCD.

<table>
<thead>
<tr>
<th>Drum Unit</th>
<th>Toner Cartridge</th>
</tr>
</thead>
<tbody>
<tr>
<td>485-4</td>
<td>485-5</td>
</tr>
</tbody>
</table>
